Government Report on Nevada Mining

There was much active development of mines in Nevada in the first part of 1920, but no general increase in the shipments of ore, concentrates or bullion, according to V. C. Holkes, of the United States geological survey, department of the interior. The high price of silver has prompted considerable work in Virginia City, the old mines as well as in virgin territory, and the outlook at Tonopah is promising, but the mines throughout the state are not producing at the normal rate on account of the scarcity of experienced miners and the expense of mining.

Falling Off in Gold.
The gold mined decreased from 8,619,937 in 1918 to about 8,478,000 in 1919, and a further decrease is indicated for 1920. The mines of the Tonopah district, which produced gold valued at \$1,287,745 in 1918, were producing considerably less in 1919 and in the early part of 1920. A fairly good output should be made by the large gold producers, such as the Elkhorn at Jarbridge, the Fairview at Round Mountain and the Florence at Goldfield, and it is hoped by the large dredge recently constructed by the Gold Canyon Dredging company near Dayton, in Lyon county. At Manhattan, in Nye county, the White Caps Mining company is shipping gold-bearing arsenic ore to a smelter plant instead of roasting the ore and treating it by cyanidation. Several new cyanidation plants may be put to the gold and silver production of 1920.

Decrease in Silver.

In 1913 silver amounted to 7,000,000 ounces, but in 1918 it decreased to 10,000,599 ounces, and in 1919 to about 7,000,000 ounces, of which the Tonopah district produced about 3,535,000 ounces. The mines of the entire state have suffered from labor trouble, and no immediate increase can be expected. Ore from the Tonopah divide mine, in Esmeralda county, is being treated at the cyanide plant at Millers, and development at depth in the western part of the Tonopah district is very promising. The old producers of Tonopah are keeping up steady shipments, and the Consolidated Virginia Mining company at Virginia City has been treating much ore at the Mexican mill. Numerous shipments are reported from new properties, among which the Arrowhead mine, in Nye county, is the most prominent.

Copper Production.

Nevada produced 116,316,441 pounds of copper in 1918, but only about 1,067,000 pounds in 1919. The shipments of copper ore and bullion in the early part of 1920 have shown no increase. The Mason Valley smelter, at Thompson, was idle and the Nevada Consolidated mine at Ely is producing only about 3,700,000 pounds of copper a month against an output of more than 6,000,000 pounds in 1916, 1917 and 1918.

Reports on Lead.

The output of lead in Nevada decreased from 23,216,534 pounds in 1918 to about 12,538,000 pounds in 1919. During the first five months of 1920 the Nevada United at Ely, the Consolidated Nevada at Ely, Black Metals and Virginia Lumber at Piocher, and the Spruce Monarch at Tohar, were making larger shipments. The Prince Consolidated Mining company continues to be a heavy shipper of iron-ore concentrates. Lead ore is also a product of the Eureka mines, good results, and development work at the Simon Silver Lead mine, in Mineral county, is encouraging. The output of recoverable zinc decreased from 16,724,753 pounds in 1918 to about 8,182,000 pounds in 1919.

ROUNDUP OF WAR SLACKERS

(By Associated Press)
CHICAGO, Aug. 11.—A roundup of slackers was launched today when government officers started combing Chicago for 212 men who, it is alleged, failed to answer the draft call. District Attorney Clynne said the list contained the names of several professional and business men.

MRS. TAYLOR SERIOUSLY ILL.

The numerous friends of Mrs. H. G. Taylor, wife of Harry G. Taylor, top foreman of the Tonopah Belmont, will regret to hear that she is seriously ill at her home on Florence avenue, and no hope for her recovery is entertained.

POLAND WARNS WORLD

(By Associated Press)
WASHINGTON, D. C., Aug. 11.—Poland, in an official proclamation issued today at Warsaw, solemnly warned the world that she is being overthrown by the Russian bolsheviks. Her fall will be due not only to "overbearing might," but to the "difference of the world which calls itself democratic."

DAVIS LEADING FOR GOVERNOR IN OHIO

(By Associated Press)
COLUMBUS, Ohio, Aug. 11.—Harry Davis, former mayor of Cleveland, has a lead of about 20,000 for the republican nomination for governor over former Congressman Ralph Cole, on returns from yesterday's primary. Former Governor Frank Willis had a lead for the republican nomination for senator. A Donahay was unopposed for the democratic nomination for governor and W. Julian had a lead for the democratic nomination for senator.

SLUSH FUND ON DIAMOND

(By Associated Press)
LOS ANGELES, Aug. 11.—A demand for a public investigation of the charges made by Babe Borton, former Vernon player, that a fund of \$2000 had been raised by Vernon players to defunct the Pacific Coast league, was made in a telegram sent by the Los Angeles Express to William McCarthy, president of the league.

ELECTION OFFICERS FOR HOT CREEK

The county commissioners have completed their appointments of precinct election officers by naming the following for Hot Creek precinct: Thomas L. Wexall, Mrs. E. A. Page and Tobe Connors, inspectors, and Helen D. Williams and George D. Wexall, clerks.

13 HOURS USED FROM THE BAY

A second brace of transcontinental flyers passed through Tonopah today at 12:58 when an Essex car tore up Main street from the west and after stopping for one minute and a half, resumed its journey eastward in another attempt to pull down the record for light cars. The car was in charge of George Harrison, who brought the first car in from Minidoka and returned with the first of the westward contenders, stopping off at Minidoka to wait for the second eastbound flyer. Al Lorenson took the wheel at Tonopah for the ride to Ely as brand pilot and will return with the next of the westbound cars. The second car, which ranks as a tool car, arrived here at 2:45 today, pursuing a comparatively slow pace, as it carries heavy equipment in the form of axes, firs, wheels and other accessories that may be needed in passing through a sparsely settled country.

GATHERING RETURNS OF MINERAL PRODUCTION

Charles Brett, special agent of the census bureau, is here in the interest of the government engaged in securing data on production of the various industrial metals and minerals in connection with the census of 1919. Mr. Brett operates in conjunction with the departments of commerce and the geological survey. Headquarters for the territory comprising the states of Nevada, Montana, Idaho and Arizona are maintained in Salt Lake. Mr. Brett will be here for a week, during which he will also visit Goldfield to complete his lists of working properties in that district.

VERA CRUZ SUPPORTS CANTU IS ASSERTED

(By Associated Press)
MEXICALI, Aug. 11.—That the state of Vera Cruz has taken the same attitude on national questions that Governor Cantu of Lower California recently assumed was asserted today by Cantu.

BABE RUTH DISLOCATES KNEE IN A SLIDE

(By Associated Press)
CLEVELAND, Aug. 11.—Babe Ruth, famous batsman, was forced to retire from today's game when he dislocated his knee in sliding to second base.

RUSSIANS HOLD RAIL LINES AROUND WARSAW

(By Associated Press)
PARIS, Aug. 11.—Russian forces are now occupying a stretch 24 miles long of the direct railway line between Warsaw and Danzig, and a large force is pushing across the Danzig corridor to cut the remaining railroad, the French foreign office announced.

NOTE FAVORS RUSS AND POLES

Territorial Integrity of All Nations Is Theme of Note To Allied Powers

(By Associated Press)
WASHINGTON, D. C., Aug. 11.—Great Britain, France and other allied and associated powers have been given copies of the American government's note to Italy announcing the policy of the United States in favor of the preservation of territorial integrity, not alone of Poland, but of Russia as well. At the same time, means are being found, it was stated officially, for the note to reach the Russian people themselves. While the United States and allies apparently are in accord as to the future of Poland, divergences of views relating to Russia was sufficiently marked to cause comment.

GAS COMES FROM WELL AT ILLIPAH

Arthur Woods returned today from visiting the famous oil well of his company at Illipah, and says everything portends an early excitement in that district. The drill is down 290 feet and gas is manifesting itself constantly to an extent that a match applied to the drill hole will immediately ignite the gas that issues from a great depth. The gas burns with a clear blue flame, and old oil men say this is one of the best indications of proximity to the oil bearing sands. The hole is going through the lime strata and small quantities of oil are brought up with the water. Mr. Woods is associated with C. H. Bent in handling this property as the partnership bought out the former firm of Richardson & Foster.

IRISH LEADERS GROWING BOLD

(Correspondence of Associated Press)
DUBLIN, Aug. 11.—Besides their resolutions acknowledging allegiance to Dail Eireann and their sympathy with the Easter week rebellion, the new Irish local councils are giving many evidences of an advanced Sinn Fein attitude.

At Cavan they have decided to cut off the water supply to the military and police barracks. In north Tipperary they have refused to accept the services of policemen appointed to act as inspectors under the food and drugs act. At Londonderry they have refused to apply the vaccination acts until they learn whether or not Dail Eireann approves of vaccination. Everywhere they are refusing to make income tax returns.

Many of the higher officials of the new bodies are magistrates, and they are being ordered, and in most cases obeying the order, to resign their commissions as justices of the peace.

FRENCH GOVERNMENT RECOGNIZES WRANGLER

(By Associated Press)
PARIS, Aug. 11.—The French government has decided to recognize General Wrangel as the head of the Russian government of South Russia. In making this announcement the ministry of foreign affairs said the recognition implied rendering General Wrangel all possible military assistance.

POLES ACCUSED OF NOT WANTING PEACE

(By Associated Press)
COPENHAGEN, Aug. 11.—The representative of the Russian soviet command wanted in vain at the front for the Polish armistice delegation on August 9, but neither the delegation nor any message from Warsaw arrived, according to M. Litvinoff, soviet representative here.

DEMPSEY WILL FIGHT BEFORE JANUARY 1921

(By Associated Press)
NEW YORK, Aug. 11.—Jack Dempsey, heavyweight champion of the world, today signed an agreement to meet Phil Brennan, Chicago boxer, on some date before January, 1921. Details of the contract were not specified.

POLAND TO ASK AID OF AMERICA

Appeal For Extension of Credit For Purchase of War Stocks Based on Italian Note.

(By Associated Press)
WASHINGTON, D. C., Aug. 11.—Poland will ask immediate aid from the United States in its fight against the soviet Russian government, Count Lubomirski, Polish minister, announced today. The appeal to the state department will be based, the minister said, upon the assurance contained in the American note to Italy that the United States will insist upon the maintenance of the territorial integrity of Poland. The aid requested probably will be confined to a request for the extension of credits by the United States for the purchase by Poland of surplus war stocks.

GOOD VALUES IN THE WEST DIVIDE

West Divide is hopeful of entering the shipping list in the course of the next five weeks, according to the statement of L. L. Patrick, president and manager of the company. The property is situated in the Lone Mountain district, seven miles west of the Tonopah & Goldfield railroad, where it is proposed to route all shipments from a point just side of Goldfield. The mine resumed recently after having been shut down during the summer owing to the shortage of labor. The workings consist of a tunnel, drifts and a raise. The depth made in the tunnel is 144 feet and the raise is going up to the intermediate level at 65 feet. Mr. Patrick says the mine has a ledge from three to five feet wide with values running between \$75 and \$125, making an average of \$100 as broken ore. A drift has been extended in ore for 70 feet south and 90 feet north and prospect holes and croppings on the surface lead to the belief that the ledge will be proven up for 200 feet north. The values are all silver with one-half to one percent copper, which renders the ore immune to cyanide treatment, according to experiments conducted at the MacNamara mill. Shipments will be sent to the Western Ore Purchasing company at Hazen.

POLES PLAN COUNTER ATTACK ON RUSSIANS

(By Associated Press)
WARSAW, Aug. 11.—The concentration and regrouping of Polish forces for an extensive counter-attack on the entire Warsaw front is reported in today's newspapers. Plans are to begin a counter-move within a few days.

BIG GUN MOUNT FOR THE ARMY

(Correspondence of Associated Press)
WASHINGTON, Aug. 11.—Popular conception of the railway mount for the heavy calibre artillery, such as the 14 inch naval gun used by the Americans in France, is that these big guns can be fired as they move along the tracks. Major General W. F. Cook, of the coast artillery, explains that this is erroneous.

DIES AFTER FORTY DAYS HUNGER STRIKE

(By Associated Press)
POTTSVILLE, Pa., Aug. 11.—After having been on a hunger strike for 40 days, Charles Wilson, colored, died today at the county jail.

SUFFRAGE TABLING RESOLUTION BEATEN

(By Associated Press)
NASHVILLE, Tenn., Aug. 11.—A resolution proposing that action by the Tennessee legislature on the federal suffrage amendment be deferred until after August 21 was tabled after a lengthy debate in the lower house today.

Miner Is Seriously Wounded By Mexican

Fred Wellbrook, a miner, employed at the Kernick Divide, lies in a critical condition today at the Mineral hospital, where he was examined by Dr. P. D. McLeod, who found his condition such that it has not yet been possible to locate the bullet.

A 22 calibre Colt automatic revolver was used by the Mexican, who rushed into the place while Wellbrook was sitting in the back room talking to Bobbie Patterson and another woman, and threatened to shoot the unknown woman. Wellbrook interfered and was shot. The fact that the gun caught in Wellbrook's shirt after the second shot probably prevented other persons being shot.

KIRBY RUNS BEHIND IN ARKANSAS RACE

(By Associated Press)
LITTLE ROCK, Ark., Aug. 11.—Returns from yesterday's state democratic primary indicate that Congressman T. Caraway is leading United States Senator W. Kirby for the senatorial nomination in Arkansas by more than 9000. T. McRae is leading in the race for the nomination of governor.

PONZI'S BANK IS CLOSED BY STATE

Hanover Trust Company Has Been Doing Business In Unsafe Manner, Says Report

(By Associated Press)
BOSTON, Aug. 11.—Bank Commissioner Allen today took charge of the Hanover Trust company, the institution in which the account of Charles Ponzi, international exchange financier, was shown recently to have been overdrawn. Ponzi personally said today that he was the Charles Ponzi who served a term in the penitentiary at Montreal.

POLES PLAN COUNTER ATTACK ON RUSSIANS

(By Associated Press)
WARSAW, Aug. 11.—The concentration and regrouping of Polish forces for an extensive counter-attack on the entire Warsaw front is reported in today's newspapers. Plans are to begin a counter-move within a few days.

BIG GUN MOUNT FOR THE ARMY

(Correspondence of Associated Press)
WASHINGTON, Aug. 11.—Popular conception of the railway mount for the heavy calibre artillery, such as the 14 inch naval gun used by the Americans in France, is that these big guns can be fired as they move along the tracks. Major General W. F. Cook, of the coast artillery, explains that this is erroneous.

PATIENT IS CONVALESCENT

Mrs. C. E. Chapman, wife of the contracting carpenter, is at the Mineral hospital improving steadily from a recent operation.

APPROACHING WINTER TO BE SUPREME TEST OF POWER OF SOVIET

Cry For Food Is Universal Throughout War Ridden Country While Even Necessities of Life Are Lacking to the Peasant Class—Barter Only Means of Trade.

(By the Associated Press)
VIBORG, Finland, Tuesday, Aug. 10.—Flushed with success and confident of Poland's defeat, soviet Russia faces the approaching winter with the grim problem of its food supply as the supreme test of its power. From the far east to the Finnish frontier the spectre of starvation stalks. The Associated Press correspondent, who has just arrived here, has observed these conditions in crossing Russia and Siberia from Vladivostok to Moscow and Petrograd. His arrival in Finland followed his deportation from Moscow. Every where, from one end of Russia to the other, the cry for food was heard. The appeal for the bare necessities of living is universal except from the extra-rational class of the higher military and civil government authorities.

BRITAIN BUILDS MERCHANT NAVY

(Correspondence of Associated Press)
LONDON, Aug. 11.—While merchant shipbuilding in the United States has been reduced by one-half since March, 1919, British shipyards are constructing nearly 15 times as much tonnage today as they did a year ago, according to figures just made public by Lloyd's Register.

The figures show that there were 575,152 tons of merchant shipping under construction in the yards of the United Kingdom at the end of June, 1920. The total number of vessels building was 241 and of these 91 are between 12,000 and 29,000 tons, 65 between 8,000 and 12,000 tons, 196 between 500 and 8,000 tons, while three are between 20, 500 and 25,000 tons.

KIMBALL FOR COMMISSIONER

L. P. Kimball, candidate for long term county commissioner, was a visitor to the courthouse this morning, where he has been a familiar figure for many years through his activity in doing jury duty and in serving on the present grand jury. Mr. Kimball hails from the southern end of the county, where he is one of the heaviest taxpayers and one of the leading stockgrowers. His cattle range from the vicinity of Bonnie (Clare to Ash Meadows and he has a home near Beatty, the fast growing little metropolis of the southern country. The candidate has been 15 years in Nevada and always ranked as one of the best constructive citizens of the county. In the early days before the railroad came in on the heels of the mining boom, Mr. Kimball operated a stage line to Las Vegas. This experience has equipped Mr. Kimball with an intimate knowledge of the requirements of one section of the county which promises to add measurably to the taxable wealth of that district.

MOTOR BOAT RACE IS WON BY MISS AMERICA

(By Associated Press)
OWEN, Idaho, Tuesday, Aug. 10.—An exciting motor boat race, won by the international motor boat pilot through the waters of Miss America in the second race of the series.

ELKS CROSS BATS WITH ROUND MOUNTAIN

Tonopah B. P. O. E. baseball team will cross bats Sunday afternoon with the Round Mountain Golds who played here two weeks ago and made such a good impression on local fans. The attendance from this camp will be excellent in view of the fact that it is some time since Round Mountain has had a special attraction to draw from the country seat. Of course, the candidates will be there in force for the purpose of cultivating the residents of the surrounding country who are all looked to for votes when the big game is played off. Manager Bill Evans is already looking automobiles for the event and his list is growing rapidly.

(By Associated Press)
WASHINGTON, D. C., Aug. 11.—The census for California, 1920, is 4,748, an increase of 272.

To Nikolai Lenin, according to accepted reports from Moscow, is attributed the statement that the Russian people cannot pass through another winter like the last. Attention upon the bare plight of the people economically is the overmastering spirit of interest and anxiety. The military organization, disciplined to the core, finds growing difficulties in carrying out its orders by the mailed fist tactics in which it has hitherto been supreme. At the end of the second year that the bolsheviks have assumed the direction of the provisional Russian government, the military leaders are capitalizing their victories to the utmost. They are installing into the hands of the people that the red forces have defeated the world's armies, seeking to enslave Russia and set up another form of barbarism. As a result of the deluge of paper money throughout Russia, a system of barter which is carried on illegally is the only means of exchange. The cost of a 400-mile trip across Russia is 1000 rubles. This is less than one American dollar, but also less than the amount needed to buy a pound of meat or salt from the peasants.

STOCK OFFERED IN RENO PLANT

Bentley is here on an inspection plant of the Reno Motor Car company, manufacturers of trucks and passenger automobiles, according to the statement of O. C. Thurber and H. E. Browne, salesmen of the company, who arrived in the city yesterday for the purpose of selling stock here. The company has a central plant in Reno, and are setting up branch plants at various points throughout the west. One of these plants is located at Beatty, Idaho, where the building has been completed and production will start in a short time. The company will concentrate on the production of trucks at first, and have their plant in the valley they will make by shipping parts instead of the assembled machines. The proposed plant in Beatty will be for the assembling of the parts. A stock issue of \$100,000 has been authorized for this plant.

MOTOR BOAT RACE IS WON BY MISS AMERICA

(By Associated Press)
OWEN, Idaho, Tuesday, Aug. 10.—An exciting motor boat race, won by the international motor boat pilot through the waters of Miss America in the second race of the series.
